Thanks 4 Good Awards on November 22, 2026, you must align your submission with the Authenticated Enterprise Intelligence Assistant (AEIA) standards. This process shifts digital content from passive consumption to "Authenticated Intent" by rewarding high-integrity, human-certified compliance. [Click2Hear Deep Dive Review]

Based on the established protocols, here is the evaluation of how to proceed:

1. The Submission Framework (AEIA 5D5G5L)

Your content must bypass "AI slop" by adhering to a rigorous multi-dimensional structure:

- **5D (Depth Layer): The video must show strict domain limiting and deep structural boundaries regarding the organization's mission.**

- **5G (Guidance Layer): You must use prompt designs that guide the reasoning and unique stylistic profile of the content.**

- **5L (Linguistic Locking): The output must be free of generic AI boilerplate, adhering to specific tone and structural rules.**

2. The 5-Step Authentication Process

To qualify for the Givillionaire Impact Award—which honors videos driving community value—you must follow these steps:

Step	Action	Requirement
Certify	Upload	Post your video to YouTube, certifying it aligns with Google TOS.
Align	Configure	Set your Gemini environment to match the target AEIA framework parameters.

Audit	**Check**	**Run a compliance prompt against YouTube TOS and Alphabet AI principles.**
Document	**Export**	**Save the final compliance report results to an immutable Google Doc.**
Aural Proof	**Generate**	**Create a native Audio Overview and save the asset to Google Drive.**

3. Impact Valuation Metrics

A successful submission for a 501(c) should mirror high-integrity case studies (like the Beast Philanthropy "Wells in Africa" model) by defining Qualified Impact. Your evaluation should include:

- **Metric Transparency: Specific technical benchmarks of the organization's work.**

- **Provenance of Action: Evidence that the project is integrated with local community needs and authorities.**

- **Impact Valuation: A clear conversion of viewer engagement into physical-world outcomes (e.g., "One view/purchase equals X amount of aid").**

Ready to begin? To move forward, ensure you have your YouTube Shared Link and Audio Overview Drive Folder ready for the submission portal.

Which 501(c) organization are you planning to highlight for the 2026 awards?
